PROFESSIONAL SUMMARY

B.E. graduate (2024) in Java Full Stack Development with hands-on experience in Java, Spring, Hibernate, REST APIs, MySQL, and Git. Built 8+ projects, including a food delivery platform. Seeking an entry-level Software Developer role.

EDUCATION

Global Academy of Technology **2020 – 2024**
Bachelor of Engineering (B.E.) in Information Science and Engineering *CGPA: 8.94/10*

TECHNICAL SKILLS

Languages: Java, Advanced Java, JavaScript, HTML5, CSS3, SQL, JSON
Frameworks & Technologies: Spring (Core, ORM, MVC), Hibernate, Bootstrap
APIs & Protocols: REST APIs, JSON
Data Structures & Algorithms: Arrays, Linked Lists, Stacks, Queues, Trees, Sorting & Searching, Algorithm Analysis
Developer Tools & IDEs: Eclipse, VS Code, Android Studio, Sublime Text, PyCharm, WordPress, Git, GitHub
Platforms: Linux, Netlify, Hostinger
AI-Assisted Development Tools: ChatGPT, Claude AI, Cursor AI, Bolt.new, Wispr Flow
Soft Skills: Problem-Solving, Analytical Thinking, Team Collaboration, Communication, Adaptability, Attention to Detail

EXPERIENCE

Tap Academy **July 2024 – March 2025**
Java Full Stack Trainee *Bangalore, Karnataka*

- Applied **Core Java**, **Object-Oriented Programming (OOP)**, and **Data Structures** to develop efficient software solutions.
- Utilized **Spring Framework**, **Hibernate**, and **MySQL** for backend development, object-relational mapping, and database operations.
- Strengthened **problem-solving**, **analytical**, and **debugging** skills through full-stack application development and software implementation.
- Collaborated in an **agile environment** to deliver features using version control with **Git** and **GitHub**.

PROJECTS

BiteNest – Food Delivery App | *Java, Spring, Hibernate, MySQL, REST APIs* **Jan 2025**

- Architected a full-stack food delivery platform using **Java**, **OOP**, and **Spring MVC** with reusable service layers.
- Integrated **restaurant listings**, **shopping cart**, and **real-time order tracking** via RESTful endpoints.
- Engineered an **admin module** for order assignment and user management with role-based access control.
- Implemented a **delivery dashboard** for status updates and route monitoring using **JSON** data exchange.
- Optimized backend operations using **MySQL** and efficient **SQL queries**, improving data retrieval speed.

Dynamic English Dictionary Web App | *JavaScript, HTML5, CSS3, REST API, JSON* **Nov 2024**

- Created a responsive dictionary application using **HTML5**, **CSS3**, and **JavaScript** with mobile-first design.
- Consumed a **REST API** to retrieve definitions, phonetics, synonyms, and pronunciations via **JSON** parsing.
- Enhanced user interaction through responsive layouts and dynamic content rendering with DOM manipulation.
- Handled missing API responses using **conditional rendering** techniques and error boundary implementation.

GAT Tour – Android App | *Java, XML, Android Studio* **Mar 2023**

- Developed an Android application using **Java**, **XML**, and **Android Studio** following MVC architecture.
- Presented departmental information, faculty profiles, and campus resources through an intuitive interface.
- Integrated an interactive campus map with **navigation checkpoints** for improved usability.
- Organized application workflows to deliver a seamless mobile user experience with optimized memory management.

CERTIFICATIONS

- Full Stack Web Development – *Tap Academy*
- Java: Mastering the Fundamentals – *Scaler*
